# Designing Responsibly

At LG Floors our commitment to the environment is far more than a policy or a program. It is built into the way we do business, it is who we are as a company. It is how we think as your partners in design, in creating spaces to work, live and play. Our approach is founded on three key elements: People, Planet, Profit.

**For People** We believe every product — flooring or otherwise — should be kind to the humans who live and work with it every day. Our vision is to create flooring solutions that keep work and living environments safe and pure, and free of compounds that may pose risks to us and future generations.

**For the Planet** We recognize that as citizens of the earth, we should tread lightly and do our utmost to preserve the waters, soils and air that we all share. We aim to create products that delight the eye and improve our surroundings, without leaving a mark on our world.

**For Profit** We understand reality. We want our clients and end-users to prosper, with eco-friendly products that perform as well as, or better, than less desirable legacy products. We want the economics to work, and surpass the old ways of doing things. And we want to give designers the freedom to create compelling spaces, with products that make sense on the bottom line and in the environment.

**The Next Level in Green Flooring**  
In pursuit of our goal to become the most preferred flooring brand in the world, LG Floors is breaking new ground in the quest for sustainability and environmental performance.

**A new approach to post-consumer recycling** Up to now, recycling and re-manufacturing post-consumer flooring has proved an elusive goal. Post-industrial recycling is relatively easy. We have been doing that for years. But the way resilient flooring is typically installed and used, it has been impractical to recover and recycle materials. The key problem is the fact that resilient flooring is installed with adhesives that make recovery and recycling difficult.

LG has discovered several ways to incorporate post-consumer content into resilient floor covering, by actually removing existing flooring — our own as well as that from other companies — and incorporating it into newly manufactured flooring.

**The result:** Flooring materials that include significant quantities of post-industrial and post-consumer materials.

**LG Floors Recycled Contents:**  
**Naturelife™ 20 % | Artwalk™ 29 %**  
**Deco™ Wood 16 % | Deco™ Stone 16 %**

## A Superior LEED Scorecard

### LEED NC 2.2 & CI 2.0 Rating System

- MR 4.1 Post Consumer 10% (post-consumer + 1/2 pre-consumer)
- MR 4.2 Post Consumer 20% (post-consumer + 1/2 pre-consumer)
- EQ 4.1 Adhesives and Sealants SCAQMD Rule #1168
- EQ 4.3 FloorScore Certification is now recognized as a substitute established originally through a CIR - Credit Interpretation Request
- ID 1.1 Green Housekeeping Innovation Credit (inquire within) borrowing from LEED EB IEQ 10.3

### LEED EB 2.0 Rating System

- MR 2.1 Optimize Use of Alternative Materials Post Consumer Recycled Content
- MR 3.1 Optimize Use of IAQ Products, A.) Adhesives & Sealants SCAQMD Rule #1168
- MR 3.2 Optimize Use of IAQ Products, C.) FloorScore Certification in lieu of CRI
- MR 4 Sustainable Cleaning Products and Services
- IEQ 10.3 Green Cleaning - Low Impact Environmental Policy

### LEED Schools, NC & Major Renovations Rating System

- MR 1.3 Maintain 50% of Interior Non-Structural Elements
- MR 4.1 Post Consumer 10% (post-consumer + 1/2 pre-consumer)
- MR 4.2 Post Consumer 20% (post-consumer + 1/2 pre-consumer)
- EQ 4 Option 1 – Adhesives and Sealants SCAQMD Rule #1168
- IEQ 4 Option 3 – Flooring Systems – CA 1350
- ID 1.1 Green Housekeeping Innovation Credit (inquire within) borrowing from LEED EB IEQ 10.3

### LEED Retail, NC & Major Renovations Rating System

- MR 1.3 Maintain 50% of Interior Non-Structural Elements
- MR 4.1 Post Consumer 10% (post-consumer + 1/2 pre-consumer)
- MR 4.2 Post Consumer 20% (post-consumer + 1/2 pre-consumer)
- IEQ 4 Option 1 Adhesives and Sealants SCAQMD Rule #1168
- IEQ 4 Option 3 Flooring FloorScore Certified
- ID 1.1 Green Housekeeping Innovation Credit (inquire within) borrowing from LEED EB IEQ 10.3
